|---|---|---|
| NAME | : | Traver Dera |
| ROLL NO. | : | 2K25MEUN01171 |
| SEMESTER | : | 2 |
| COURSE | : | CRITICAL THINKING, DESIGN THINKING, LEADERSHIP AND TEAMWORK |
| INSTITUTION | : | Manav Rachna University |
| FACULTY | : | _____ |

SUBMITTED ON:

_____

# 1. Introduction

User Persona is a powerful design thinking tool used to understand the needs, behaviors, and challenges of target users. It helps in building empathy with users and ensures that products are designed according to real user expectations rather than assumptions.

In this task, a user persona has been created for a **custom sneaker design platform**, representing a typical user and their interaction with the system.

# 2. Objective

The objective of this task is to:

- Understand user needs and expectations
- Apply empathy-building techniques
- Identify user behavior and preferences
- Analyze challenges faced by users
- Improve product design through user insights

# 3. User Persona Overview

The created persona represents **Aarav Mehta**, a 21-year-old college student from Faridabad.

**Key Characteristics:**

- Tech-savvy and fashion-conscious
- Active on social media
- Prefers personalization and unique designs
- Frequently shops online

# 4. Components of User Persona

## 4.1 Demographics

Includes basic user details such as age, location, education, and occupation.
This helps in identifying the background and lifestyle of the user.

## 4.2 Goals and Objectives

The user aims to:

- Purchase stylish and unique sneakers
- Customize products easily
- Get affordable pricing
- Receive fast delivery

## 4.3 Psychographic Information

This section focuses on personality traits and interests:

- Influenced by trends and social media
- Creative and expressive
- Interested in fashion and customization

## 4.4 Behavior and Preferences

The user:

- Shops frequently online
- Prefers mobile applications
- Compares products before buying
- Relies on reviews and ratings

## 4.5 User Journey

The journey describes the steps followed by the user:

1. Notices advertisement on social media
2. Visits the product website
3. Customizes the product
4. Reviews the design
5. Places the order
6. Receives the product

## 4.6 Challenges and Pain Points

The user faces several issues:

- Complex customization interface
- Limited design options
- High product pricing
- Slow delivery process
- Lack of real-time preview

# 5. Analysis

The persona highlights that users prefer:

- Simplicity and ease of use
- Personalization options
- Quick and efficient service

Understanding these factors helps designers improve product usability and customer satisfaction.

# 6. Conclusion

User Persona is an essential tool in design thinking that bridges the gap between users and designers. By analyzing user needs, behaviors, and challenges, better and more user-centric products can be developed.

This task helped in understanding how empathy plays a key role in designing effective solutions.
